Austin, TX 78758

Dear Valued IBM Customer,

Your active participation in the OS/2 Warp Server for e-business beta program was invaluable in producing a quality product. Thanks to the feedback from all of the participants, OS/2 Warp Server for e-business is now available worldwide. We believe this new release will help you continue to benefit from your investment in OS/2, while leveraging Internet technologies.

In appreciation of your participation in the beta program, it is our pleasure to send this Preview Kit. This kit contains final OS/2 Warp Server for e-business product information, and also serves as the conclusion of this beta program. The Preview Kit explains the key benefits of OS/2 Warp Server for e-business and includes components to help you share the excitement with your colleagues and management:

- Transformation to Network Computing Solution Overview brochure
- IBM OS/2 Warp Server for e-business specification sheet
- IBM WorkSpace On-Demand 2.0 specification sheet
- StandbyServer for OS/2 Warp specification sheet
- Preview CD-ROM

The Preview CD-ROM contains the following sections:

- Introduction to Network Computing video; an IT manager explains his needs and how OS/2 Warp Server for e-business helps meet them as part of a total solution
- Benefits of Network Computing; simulated demonstration and product overview information
- References and Testimonials; video and text references
- White Papers and Additional Documents; many additional documents that describe detailed product information
- How IBM Can Help; describes some of IBM's services offerings

Please visit the OS/2 Warp Server for e-business site for the latest information, additional videos, information on OS/2 Year 2000 readiness, and to download an OS/2 Warp Server for e-business screen saver: <http://www.ibm.com/software/os/warp/warp-server>

To order OS/2 Warp Server for e-business, visit <http://www.ibm.com> and select Shop IBM, and then select your country. You may also contact your IBM Representative or IBM Business Partner.

Once again, thank you for your participation in the beta program.

Sincerely,

Ken W. Christopher, Jr.
Program Director
OS/2 Client/Server Product Development Team
